

Protecting Your High Quality Products with Aerosafe Global Shipping Package.

ZERO EXCURSIONS. NO EXCEPTIONS. PROVEN SOLUTION FOR MISSION-CRITICAL, COLD-CHAIN SHIPPING.

Dear Valued AllCells Customer,

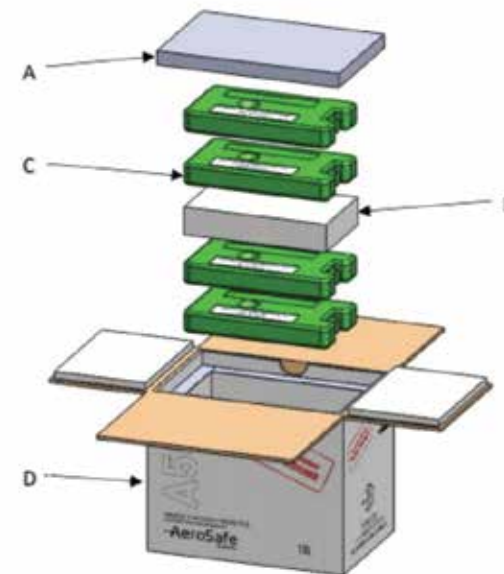

We have switched to a new insulated shipping package manufactured by AeroSafe Global™, and for good reason. It is a high performance product that protects temperature sensitive product more reliably than any other insulated option. The use of these packages will ensure that AllCells products remain within a safe temperature range and will ensure that the highest quality Human Primary Cell products are protected; with the integrity and viability that you have come to expect from AllCells.

BENEFITS

- **Product Quality:** Shipping temperature range maintained for up to 96 hours after packaging.
- **Sustainable Shipping:** Reusable and recyclable packaging components reduce landfill and disposal within your facility.
 - > limit the waste to the environment and handling within your facility.
- **Integrity:** Proven package integrity - over \$9 billion dollars worth of valuable product shipped in this configuration with no excursions from Aerosafe.

Superior services mean superior results with flexible and sustainable shipping that's cost effective and more importantly, preserves the quality of your cells and the consistency of your research.

Thank you for your business, **AllCells** - Quality Cells for Quality Science

RETURN SHIPPING REQUIRED!

This shipping package helps protect the integrity of the valuable products within it. It has also been designed for reuse. Please assist AllCells and AeroSafe Global with the package recovery by following these simple instructions:

- 1 **Replace** - packaging contents after removing samples
- 2 **Reseal** - close shipper by inverting flaps - flap 2 is now on top. Tape flap 2 closed along the dotted lines.
- 3 **Return** - 3 easy ways to return.

Choose one of the following methods:

- a. Give to your shipping department or place in a designated pick-up spot
- b. Scan this QR code

- c. Need to talk to someone? Call 585.760.2830
