

# Protecting Your High Quality Products with Aerosafe Global Shipping Package.

ZERO EXCURSIONS. NO EXCEPTIONS. PROVEN SOLUTION FOR MISSION-CRITICAL, COLD-CHAIN SHIPPING.

Dear Valued AllCells Customer,

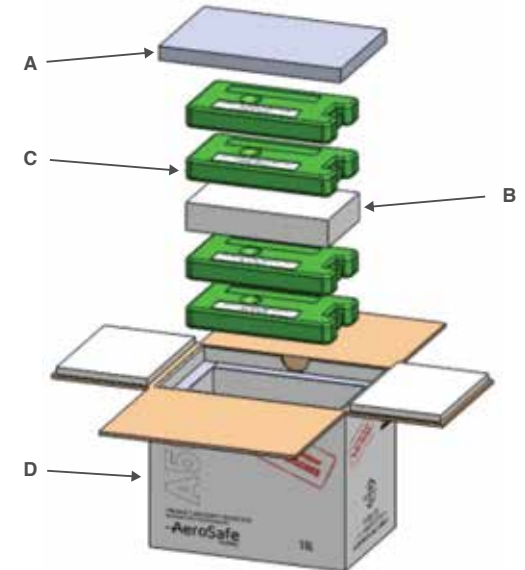

We have switched to a new insulated shipping package manufactured by AeroSafe Global™, and for good reason. It is a high performance product that protects temperature sensitive product more reliably than any other insulated option. The use of these packages will ensure that AllCells products remain within a safe temperature range and will ensure that the highest quality Human Primary Cell products are protected; with the integrity and viability that you have come to expect from AllCells.

## BENEFITS

- **Product Quality:** Shipping temperature range maintained for up to 96 hours after packaging.
- **Sustainable Shipping:** Reusable and recyclable packaging components reduce landfill and disposal within your facility.
  - > limit the waste to the environment and handling within your facility.
- **Integrity:** Proven package integrity - over \$9 billion dollars worth of valuable product shipped in this configuration with no excursions from Aerosafe.

Superior services mean superior results with flexible and sustainable shipping that's cost effective and more importantly, preserves the quality of your cells and the consistency of your research.

Thank you for your business, **AllCells** - Quality Cells for Quality Science

# RETURN SHIPPING REQUIRED!

AEROSAFE is reusable and recyclable and will limit waste to the environment. To complete the USE to REUSE, an AEROSAFE representative will contact you by 1) Phone or 2) Email regarding this shipment to facilitate the return of the AEROSAFE box. In addition, the AEROSAFE package will also include complete instructions for its return which are reiterated below in 3 easy steps.

- 1 **Replace** - packaging contents after removing samples, temp tales and dry ice.
  - 2 **Reseal** - close shipper by inverting flaps - flap 2 is now on top (with the return address label on top).  
Tape flap closed along the dotted lines.
  - 3 **Return** - You will be contacted by our Return Logistics team to notify you that a pickup has been scheduled for this box. Within the next 48 hours, UPS will retrieve the box at your designated pickup area during normal business hours.
- If pickup is unsuccessful, please choose one of the following options:**
- a. Scan the QR code on the insert from AllCells **OR**
  - b. Call 585.760.2830 and someone will be happy to assist.
